Languages
Main:
Scala: 3+ years
Java: 4+ years
Bash/Unix: 4+ years
Experienced:
HTML/CSS: 3 years
PHP: 2 years
JavaScript: 2 years
Used in the past
C: 1 year
SQL: 1 year
Interests & curiosity
Python, R: few projects

DevOps exp.
Jenkins: 3+ years
Docker: 3+ years
Ansible: 1+ year
OpenWatt: 1+ year
JMeter: 1 year

Personal skills

Experience

09/14 - Now **Apprentice Software Engineer** Orange Labs Products & Services, Cesson Sévigné - FRANCE
Apprenticeship to develop software in *Scala* following a *DevOps* methodology in a team of 14 Metrology experts. Developing a solution of performance testing for servers; daily use of *Git*, *Docker*, *Jenkins*, *Ansible* and *OpenStack*.

02/15 - Now **Systems and network engineer** On my own - FRANCE
Management of my dedicated server; use of *Docker* to manage virtual hosts and services, *Jenkins* to do some *DevOps* and deploy some websites automatically, like my web-portfolio: http://www.colinleverger.fr.

04/14 - 07/14 **Internship** Athlone Institute of Technology, Athlone - IRELAND
Three months end-of-course internship; preparation of project subjects for students. Worked with *Arduino*, *Java*, *HTML/CSS*, *PHP* and *C*; what I did is now used in Athlone Institute of Technology.

Higher education

09/16 - 02/17 **ERASMUS** Roskilde University, Roskilde - DENMARK
5 months abroad, ERASMUS exchange in Denmark for the last academic semester of my Master Degree.
Main subjects: IT-architecture and user driven software design, Big Data, Danish.

09/14 - 09/17 **Master 2 Degree in Computer Engineering** E.N.S.S.A.T., Lannion - FRANCE
Curriculum Networking, Multimedia & Computing Science.
Main subjects: Network Applications, Systems Architecture, Design of Services & of User Interfaces.

2012 - 2014 **Two year Undergraduate University Degree of Technology in Electronics and Computing** Université de Rennes 1, Rennes - FRANCE
Main subjects: Programming, Microchip, Telecommunication, Digital and Analogic Electronics.

Certifications

07/16 - Now **Scala Specialization** Coursera, E-learning
Learning Functional paradigm with the Scala language. The course is complemented by a series programming projects as homework assignments.

09/16 **Fondamentaux pour le Big Data** FUN MOOC
Learning fundamental of Big Data, going from Mathematics to Databases.

Skills

Computing
Paradigms
Functional, imperative, object-oriented, concurrent programming, real-time programming
Notable tools
Scala sbt, Play Framework, Git, Jenkins, Ansible, OpenWatt, Docker, Microsoft Office, texmaker, IntelliJ, MySQL, mongoDB, xampp, SSH, Neo4j, Gephi, Jmeter, Gatling

Hobbies
Music **www.youtube.fr/colinleverger**
Guitarist / Bassist / Singer, had several bands
Sports
Kayaking / Swimming / Long hikes / Badminton

Languages
French
Native
English
Fluent & good technical skills - B2 level
