Scala ★★☆☆☆

Personal Skills

Experience

09/14 - Now **Apprentice Software Engineer** Orange Labs Products & Services, Cesson Sévigné - FRANCE

Apprenticeship to develop software in *Scala* following a *DevOps* methodology in a team of 14 Metrology experts. Developing a solution of performance testing for servers; daily use of *Git*, *Docker* and *Jenkins*.

02/15 - Now **Systems and network engineer** On my own - FRANCE

Management of my dedicated server; use of *Docker* to manage virtual hosts and services, *Jenkins* to do some *DevOps* and deploy automatically some websites, like my web-portfolio: http://www.colinleverger.fr.

04/14 - 07/14 **Internship** Athlone Institute of Technology, Athlone - IRELAND

Three months end-of-course internship; preparation of project subjects for students. Worked with *Arduino*, *Java*, *HTML/CSS*, *PHP* and *C*; what I did is now used in Athlone Institute of Technology.

Higher education

09/14 - Now **Master 2 Degree in Computer Engineering** E.N.S.S.A.T., Lannion - FRANCE

Curriculum Networking, Multimedia & Computing Science.
Main subjects: Network Applications, Systems Architecture, Design of Services & of User Interfaces.

2012 - 2014 **Two year Undergraduate University Degree of Technology in Electronics and Computing** Université de Rennes 1, Rennes - FRANCE

Main subjects: Programming, Microchip, Telecommunication, Digital and Analogic Electronics.

Certifications
