Higher education

2017 - 2020 **Ph.D. student**, *INRIA/IRISA, Orange Labs and Services*, Rennes - FRANCE.
Research in the field of *Time Series* and *Capacity Planning*; development of *Machine Learning* algorithms and mining of *Time Series* datasets to make predictions/forecasts in the context of *infrastructure performances*.

2016 - 2017 **ERASMUS semester**, *Roskilde University*, Roskilde - DENMARK.
Five months ERASMUS in Denmark in 2016.
Main subjects: Big Data, Design of Services & of User Interfaces.

2014 - 2017 **Master 2 Degree in Computer Science via an apprenticeship program at a highly selective graduate engineering school**, *E.N.S.S.A.T.*, Lannion - FRANCE.
Curriculum Networking, Multimedia & Computing Science.
Main subjects: Network Applications, Systems Architecture, Design of Services & of User Interfaces.

2012 - 2014 **Two year Undergraduate University Degree of Technology in Electronics and Computing**, *Université de Rennes 1*, Rennes - FRANCE.
Main subjects: Programming, Microchip, Telecommunication, Digital and Analogic Electronics.

Work experience

2018 **Lab assistant**, *E.N.S.A.I. Engineering School*, Bruz - FRANCE.
33 h as a lab assistant at E.N.S.A.I for master 2 students. I wrote the project subject, where students had to create a terminal application/web scraper in Python 3. I taught 4 groups of 5 students.

2017 - 2018 **Lab assistant**, *Computer Science Department, University of Rennes*, Rennes - FRANCE.
52 h as a lab assistant in University of Rennes 1 for bachelor students. 40 h TP Scala, 14 h TP Web Programmation.

2014 - 2017 **Apprentice Software Engineer**, *Orange Labs and Services*, Rennes - FRANCE.
Apprenticeship to develop software in *Scala* following a *DevOps* methodology in a team of 14 Metrology experts. Developing a solution of performance testing for servers; daily use of *Git*, *Docker* and *Jenkins*.

From Apr. 14 to Jul. 14 **Intern**, *Athlone Institute of Technology*, Athlone - IRELAND.
Three months end-of-course internship; preparation of project subjects for students. Worked with *Arduino*, *Java*, *HTML/CSS*, *PHP* and *C*.

Publications

Sep. 2018 **ECML 2018 - Workshop paper**, *English*, Dublin - IRELAND.
C. Leverger, V. Lemaire, S. Malinowski, T. Guyet and L. Rozé, "Day-ahead time series forecasting : application to capacity planning.", in AALTD workshop ECML 2018.

Jan. 2018 **EGC 2018 - Demo paper**, *French*, Paris - FRANCE.
C. Leverger, R. Marguerie, V. Lemaire, T. Guyet, and S. Malinowski, "PerForecast : un outil de prévision de l'évolution de séries temporelles pour le planning capacitaire.", in EGC 2018, vol. RNTI-E-34, pp.455-458.

Personal projects

2014 - 2018 **Coursera MOOCs**, *Coursera*, Internet.
Followed and completed more than 10 MOOCs, including 'Functional Programming Principles in Scala', 'Big Data Analysis with Scala and Spark', 'Introduction to Neurohacking with R', etc. Certificates available upon request.

2014 - 2018 **Systems and Network Engineer**, *On my own*, Rennes - FRANCE.
Management of my dedicated server; use of *Docker* to manage virtual hosts and services, *Jenkins* to do some *DevOps* and deploy automatically some websites, like my web-portfolio: http://www.colinleverger.fr.

Skills

Language

French	Native
English	Level B2 *(Common European Framework of References for Languages) - Independent user*
Danish	Notions
Japanese	Currently learning

Computing

Languages	Scala, Java, Python, R, Julia, C, HTML/CSS, PHP, JavaScript, Bash/scripting, SQL, NoSQL, LaTeX
Paradigms	Functional, imperative, object-oriented, concurrent programming, real-time programming
Tools	Scala sbt, Play Framework, Git, Jenkins, Ansible, OpenStack, Docker, texmaker, IntelliJ, MySQL, mongoDB, xampp, SSH, Neo4j, Gephi, Jmeter, Gatling, Spark, ELK, influxDB

Interests and Hobbies

Music	Guitarist / Bassist / Singer for 16 years, had several bands.
Running	Training two to three times per week, intermediate level.
Kaggle	Improving my data science skills on competitions and challenges on the Kaggle platform.
Code	Several projects, from System Administration on my dedicated server to contributions on Open Source projects (see https://github.com/ColinLeverger for details.)
